DEVELOPMENT OF SPORTS INFRASTRUCTURE :STATE SPORTS GRID

The Government will take steps in a manner that necessary infrastructure is build up over a period of time. There is an immediate need to create a network of basic sports infrastructure throughout the state to enable more people to participate in sports thereby broadening our base for scouting of talent. Sports infrastructure would be created uniformly throughout the state.

Although the government has implemented several schemes to provide rural sports infrastructure, their reach and range has been limited owing to the constraint of resources. Further, maintenance has suffered over the years on account of low priority and lack of sustainable institutional arrangements. Another major constraint is the gross inadequacy of trained sportspersons who can coach the local villagers to take to sports and games in any meaningful manner. The upside is the tremendous variety of indigenous sports and games in the state. It is, therefore, important to balance the provision of infrastructure for internationally recognised sports and games with facilities for encouraging locally popular varieties. All this calls for the introduction and implementation of a major initiative to provide sufficient resources, in convergence with appropriate existing schemes to enable panchayats to create the minimum sports infrastructure in every panchayat area.

The blocks level stadiums will have both indoor and outdoor facilities. In the block level stadiums sports facilities for about fifteen outdoor and indoor sports disciplines, along with sports equipment of requisite quality would be created by convergence of resources under different schemes. 160 Rajiv Gandhi Gramin Khel Parisars constructed by HSAMB have been transferred to sports department for maintenance and operation. Required number of ground men/ security guards will be hired on contract basis for operation and maintenance of these complexes. Electricity connection will be installed. District Sports Councils will hire services of volunteers on honorarium and trainers on contract basis on need-basis to organize sporting activities in these facilities more efficiently.

It is intended that up-gradation of district level stadiums would be taken up. Facilities for minimum fifteen sports discipline (ten outdoor and five indoor games) would be created, if not existing. Gymnasium facility in all districts level stadiums would be provided. District level stadium would be owned, managed and operated by respective district sports council.

The department will build more modern play-surfaces like Astro turf, synthetic tracks, halls and courts at suitable locations to make international standard facilities available to career sportspersons.

For creation of infrastructure along with its repair and maintenance, procurement and maintenance of specialised sports equipments and for running of sports nurseries, academies and centres, Sports and Physical Fitness Authority of Haryana has been set up. To accelerate project preparation and monitoring of project under execution better, the Authority will be adequately

staff. Department will hire technical people from the open market on contract basis to meet the need of technical input. The project cell will focus on contemporary, innovative and cost-efficient designs of playgrounds and work for expeditious completion of on-going projects.

Funds will be utilized for services like horticulture, security, irrigation, minor repair and electricity charges. Instrumentalities like outsourcing, re-employment, private partnership, volunteerism etc will be used to mobilize necessary manpower to utilize these premises efficiently.
